

Lake Crescent Lodge

Top 10 Environmental Steps

1. Our **Recycling and Composting Program** keeps 90% of our waste out of landfills, totaling nearly 3 tractor-trailers full of trash per year
2. Our **Paper Towels, Office Paper, Bath Tissue, Cup Sleeves, and Facial Tissues** are made with material recovered from curbside recycling bins
3. We purchase **Solid Block Dish Detergents**, which use 60% less packaging materials than their liquid counterparts
4. Our **Hand Soap is Green Seal Certified** as biodegradable and non-toxic to aquatic life
5. Our **Dishwasher Sanitizes with Hot Water** instead of chemicals, which helps us protect water quality
6. **Over 55% of Our Lights Are High Performance T8s, LEDs, or CFLs** that use about up to 80% less energy, last longer, and emit fewer greenhouse gases than incandescents
7. By providing **Reusable Napkins** we decrease our dependence on single-use paper and reduce the amount of waste we produce
8. Our **Energy Star Qualified Dishwasher, Steamer, Oven, and Refrigerators** are 25% more energy efficient than conventional models and the dishwasher and steamer use about 30% less water
9. Over 40% of our main dishes are **Vegan or Vegetarian**, which require significantly less energy and water to produce than meat
10. Our facility is **Styrofoam Free**, which keeps harmful chemicals and litter out of our environment
